Capabilities Statement

SRCA is a veteran owned LLC, with over 27 years of experience providing quality services and products to the United States military, the federal government, and commercial users. SRCA's competent team of aviation safety experts, programmers, database developers, graphic artists, instructional designers, and project managers possess the expertise to deliver on-time technical services and products that represent the highest standards at a competitive cost. SRCA has a long history of providing secure, professional services in the aviation industry. President and CEO, Mr. Robert Rendzio, holds an advanced degree in Systems Management and an undergraduate in Safety from Embry Riddle Aeronautical University. He has expertise in specialized aviation safety to include IS-BAO, DCMA, and FAA requirements for EWIS. SRCA provides mishap investigation, and Maintenance, Repair, and Overhaul (MRO) assistance to ensure companies meet Defense Contracting Management Agency (DCMA) 8210.1 requirements. Additionally, SRCA assists in the develop of Minimum Essential Equipment Listing (MEL) requirements, and customized training.
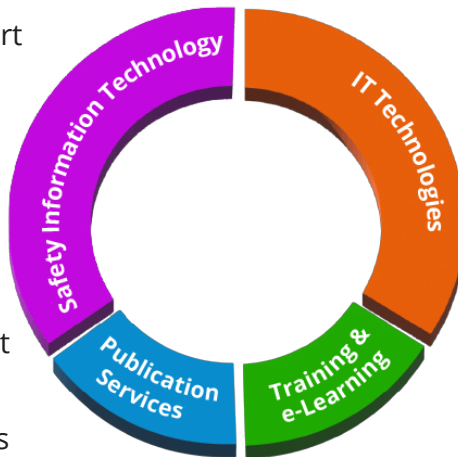

Core Competencies
